

DTEN D7X

Android Edition

All-in-One Video Conferencing and Collaboration Solution
Certified for Microsoft Teams

SOLUTION OVERVIEW

The AI-powered All-In-One DTEN D7X Android Edition propels every Microsoft Teams meeting room into a modern meeting and collaboration workspace.

True All-in-One Design

- **Sleek Modern Design.** Ultra thin and lightweight for a modern meeting experience
- **True All-in-One.** All 5 components of video conferencing in a single device
- **Touch Display.** 4K display with low latency for natural writing experiences
- **Award-winning UI/UX Design.** The D7X Series has been recognized for excellence in product and user experience design.

Certified for

Microsoft
Teams

Device Certification

The DTEN D7X Android Edition meets or exceeds requirements for Microsoft Teams certification as an All-in-One (AIO) appliance and Microsoft Teams Whiteboard.

Advanced Audiovisuals and Touch Technology

DTEN D7X offers user-friendly and equitable meeting experiences for **ALL** users

- Crisp 4K video promotes engagement enables users to focus on the meeting
- Advanced 15-microphone array ensures that everyone in the meeting is heard clearly and a powerful integrated speaker system provides room-filling sound
- Built-in collaboration tools make it easy to participate with the hyper-responsive touch display

Collaborate Better than Ever

Get the collaboration tools needed for successful team brainstorming and project planning with whiteboarding along with the ability to annotate documents and presentations in real time.

Under 50ms touch response for natural feeling brainstorm sessions

Intuitive writing tools, auto shapes and choice of colors

4K captive touch display with 20 points of touch

Natively Supports Microsoft whiteboard

A Complete End-to-End Customer Experience

Easy to purchase, easy to deploy, easy to use, easy to scale, easy to service

- The DTEN D7X is designed for any user to get setup and into their first Teams meeting in minutes, with no technician required.
- Unlike conventional setups, the D7X can be configured on the device itself
- DTEN Solutions are in stock and ready to deploy, with sales and support hubs available to US, UK, EMEA, APAC and LATAM.
