

DTEN Orbit

Maximize Your Meeting Spaces with DTEN Orbit & DTEN Orbit Pro

Maximize Your Meeting Rooms with DTEN Orbit & DTEN Orbit Pro

DTEN Orbit makes it easy to manage and maintain your DTEN devices, all from a single convenient cloud-based dashboard. All DTEN devices include the FREE DTEN Orbit Basic and should be registered to an Orbit account upon activation.

Registering your devices will help you manage firmware updates and allow the DTEN team to quickly help you with any support issues or questions you may have. Additionally by entering support request tickets via Orbit to our team, your responses and resolution times will be much quicker.

- + Extended Warranty
- + Advance Parts Replacement
- + Worry-free IT Support
- + Remote Device & User Management
- + Device Health Monitoring

For extended warranty and enhanced support options, upgrade your Orbit Basic plan to DTEN Orbit Pro. DTEN Orbit Pro plans will extend your warranty by either 1 or 2 years, which starts after the Manufacturer's warranty expires. Explore more benefits of DTEN Orbit Pro [here](#).

If you have a partner who helps you manage your devices and support issues, you can create an Orbit account, and then allow your partner to help manage devices.

Registering Your Device with DTEN Orbit is Easy

[Click here to register for an account with DTEN Orbit.](#) All devices need to be added to your account within 30 days of activation, or you will need to reach out to our support team to manually add the devices to your account.

If you have already purchased an updated Orbit Pro license, simply register the device as usual with DTEN Orbit, and then our Orbit team will update the Orbit license from Basic to Pro which will then display the expiration date in the Orbit dashboard under the device listing page.
