

OMC for IT Guidance

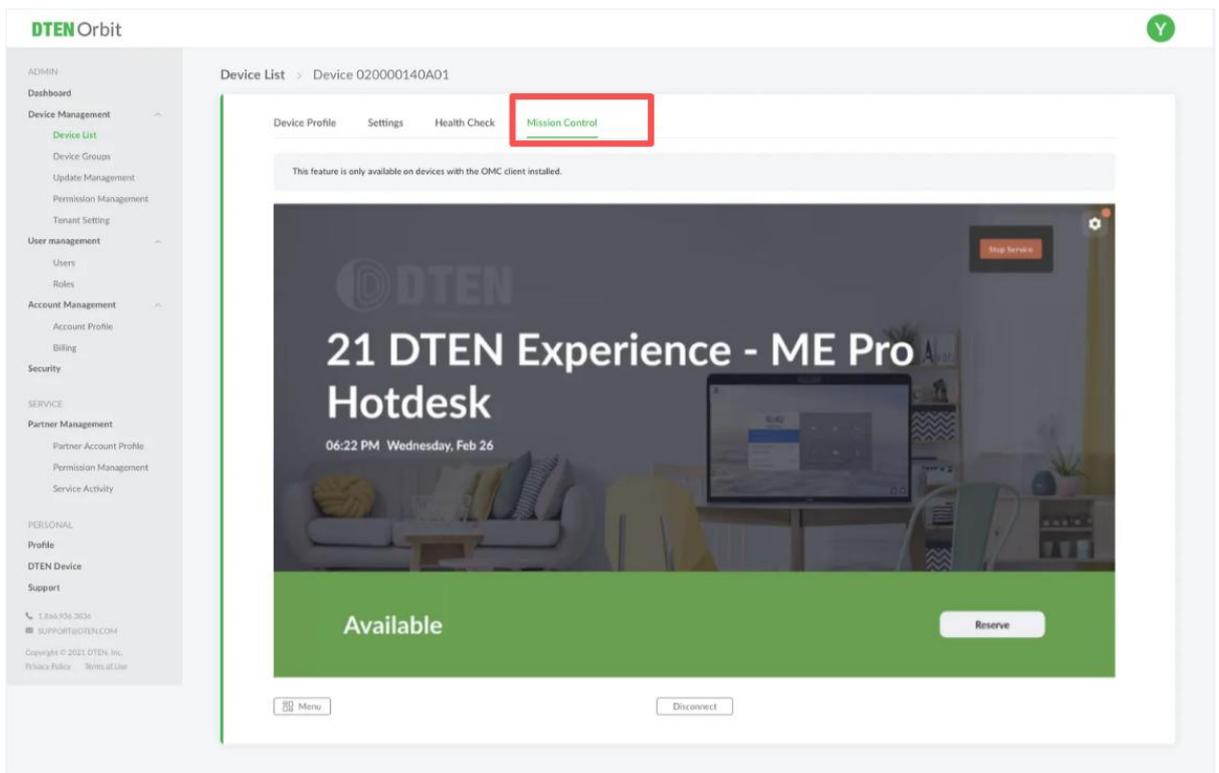

Step-by-step instructions:

When you want to use Orbit Mission Control, please:

1. Contact technical support to add the device to the whitelist.
2. Log in to Orbit and go to Device Settings.

3. Select a device already on the whitelist to view its details, and choose Mission Control

4. Click the connect button to remotely operate the device.

5. Both the device and OMC can disconnect the remote control.
